Dear Ms. Price:

We have received and reviewed the corrective actions from the February 2005 DSCC-VQE audit of your Tijuana, Mexico assembly facility (IRMX). The corrective actions have been found to be acceptable therefore the audit is considered closed.

The audit was conducted by Mr. Thomas Hood and Mr. Zade Karadsheh of this Center and Mr. Mel Cohen of The Aerospace Corporation to determine compliance with the Manufacturer's Certification requirements of MIL-PRF-19500M. Compliance with these requirements has been successfully demonstrated. Therefore, IRMX is considered a JANTX and JANTXV certified assembly facility. This approval is in addition to International Rectifier's current MIL-PRF-19500 Manufacturer Certification granted by DSCC letter VQE-04-006297. This approval for IRMX will be added to International Rectifier's next MIL-PRF-19500 certification letter. Certified package styles are: TO-3, TO-39, TO-254, TO-257, SMD-.5, SMD-1, SMD-2, MO-036AB, and LCC-18.

If you have any questions please call Mr. Thomas Hood at 614-692-0613 or by e-mail at Thomas.Hood@dla.mil.
