14. PRODUCT CHANGE  This GIDEP PCN is to announce a change in the TO-257 package construction used for IR class M and custom products. The TO-257 package wall on the leads/glass seals side will increase in thickness by 10 mils. The glass seals diameter will be reduced by 10 mils. See parts list herein.  This package construction change does not affect the Case Outline and Dimensions for the IR TO-257 type packages.  This Product Change Notice has been coordinated with IR Engineering prior to its release, including device requalification in accordance with the performance requirements of MIL-PRF-38535. The package construction change will be transitioned starting June 01, 2015.
