	13. SPECIFICATION NUMBER MIL-PRF-38534

14. PRODUCT CHANGE
This GIDEP PCN announces a change in the part marking type for IR HiRel DC/DC Converters and Filters. IR HiRel will be changing the marking process to include VideoJet marking technology. This Process change notice serves to announce and validate the change to the part marking appearance.

Change:

The current marking process used a silk screen printing method to mark production devices. IR HiRel is changing the process method to VideoJet, which uses inkjet technology and requires no surface contact during the printing process. See below for marking appearance sample;

From: Silk Screen Marking

To: Videojet Marking
